

Product Training Webcasts - Learn. Grow. Thrive.

Join Honeywell Product Managers and Technical Specialists for eLearning LIVE – a series of one hour online training webcasts that focus on product technical training sessions and new ways to improve and grow your business in 2015.

January 6, 2015

No eLearning LIVE. Happy New Year!

January 13, 2015, 10:00 a.m. CST

Recovering Your Environmental Costs

Mercury recycling isn't just good for the environment, you can profit from recycling mercury. Join the experts from the Thermostat Recycling Corporation (TRC) to learn ROI calculation, charging for recycling responsibly and how to earn money when recycling your mercury thermostats.

January 20, 2015, 10:00 a.m. CST

Universal Gas Valves

The days of being required to replace a gas valve with the same model are over – there is something better than like-for-like. The compact design of Honeywell valves require fewer stocking trips, take up less space on service trucks and work in a multitude of applications. They are the perfect replacement valves to carry on your truck or on your shelves. Honeywell universal gas valves, with redundant design, install anywhere for improved safety everywhere.

Contractor PRO™, Your Business Counts

Honeywell's Contractor PRO members tap into resources, special offers and ideas that help them grow their business. In this session you'll learn about all of the exciting new program updates and how they benefit contractors and distributors. Dial in to learn how we've listened to you and made the program even better for your business!

February 3, 2015, 10:00 a.m. CST

Scalable Filtration Offering

Filtration is much more than a standard 1" filter. But it doesn't have to be a cost-prohibitive offering either. We'll help you identify common causes of household contaminants, and how to use the MERV rating to find the right product for that contaminant. This session will help you select the right products and accessories that will lead to cleaner air in your customer's home...at any budget.

February 10, 2015, 10:00 a.m. CST

Glowfly™ Universal Hot Surface Igniter

Join us for this session to learn about the first truly universal hot surface igniter. Specifically designed for service replacement jobs, this igniter brings the latest technology and OEM quality to even the oldest furnaces. More durable than silicon carbide, this silicon nitride igniter is less prone to breakage and replaces over 110 installed models with its universal bracketing design.

February 17, 2015, 10:00 a.m. CST

Lyric™ Thermostat

Busy families don't operate on a fixed schedule. Why should their thermostats? The Lyric thermostat is designed for how your customers really live. No schedules, no programming, and no complex menus — simply comfort when they're home and savings when they're away. Join us to learn about this new platform from Honeywell.

February 24, 2015, 10:00 a.m. CST

Updated Ventilation Strategy and Options

More and more, ventilation is rapidly becoming a necessity, if not a requirement for new construction and retrofit applications. You'll want to tune in to learn about what's new in ventilation and how it can benefit your customers and your business. Make more money, connect with your customers. Learn how.

March 3, 2015, 10:00 a.m. CST
